Parent Survey – Remote Learning 2

This survey was sent out on School Stream a couple of weeks ago. We have only had 2 responses. This is totally anonymous and it would be terrific if more people responded. Those not on School Stream were emailed a copy of the survey.

Thank you

National eSmart Week

National eSmart Week is an initiative of the Alannah & Madeline Foundation and is all about building supportive and connected social environments both on and offline. At the start of this year, who would have thought that schools would be in remote learning, and spending more time online than ever before? Our school community has done an amazing job at adapting throughout this year. This year's National eSmart Week theme is Connecting Safely. The week from 6-12 September celebrates the work schools have done to connect safely.

New Blinds

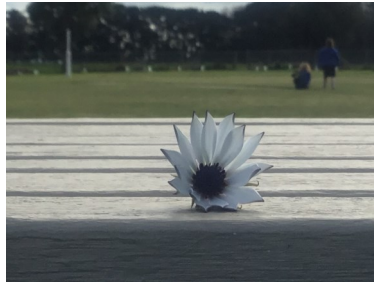

Last week we had new blinds have been fitted to the exterior of Far East class. These replace the roller shutters that have been broken for a while.

ICT with Mrs Ski

Last week we focused on perspective and learnt about the Foreground and Background. We used little toys as our subjects and positioned them in the foreground of photos. We aimed to capture the background as only a blur to show depth. It was tricky to get close to the toys and angle the camera correctly. There were lots of great photos that were taking during this week.
